

To Whom It May Concern

RESTRICTION OF HAZARDOUS SUBSTANCES and HEAVY METAL REPORT

*This statement applies to our entire range of glue/glycerine gasket paper materials
branded Flexoid®, Sizoid®, Oakenstrong®, Firefly® and all other brand names.*

The RoHS Directive stands for "the restriction of the use of certain hazardous substances in electrical and electronic equipment".

Directive 2002/95/EC restricted the use of certain hazardous substances in electrical and electronic equipment (EEE) and is commonly referred to as RoHS 1.

Directive 2011/65/EU is commonly referred to as RoHS 2 and its additional provisions came into effect in January of 2013.

Directive 2015/863 is commonly referred to as RoHS 3 (being the third version) and came into effect from July 2019.

These directives ban the placing on the EU market of new electrical and electronic equipment containing more than agreed levels of:

- **Cadmium (Cd):** < 100 ppm
- **Lead (Pb):** < 1000 ppm
- **Mercury (Hg):** < 1000 ppm
- **Hexavalent Chromium: (Cr VI)** < 1000 ppm
- **Polybrominated Biphenyls (PBB):** < 1000 ppm
- **Polybrominated Diphenyl Ethers (PBDE):** < 1000 ppm
- **Bis(2-Ethylhexyl) phthalate (DEHP):** < 1000 ppm
- **Benzyl butyl phthalate (BBP):** < 1000 ppm
- **Dibutyl phthalate (DBP):** < 1000 ppm
- **Diisobutyl phthalate (DIBP):** < 1000 ppm

All gasket material produced by Jointine Products (Lincoln) Ltd uses cellulose base paper, impregnated with gelatine, glycerine and other organic plasticisers and dyestuffs.

All packing material consists of polyethylene moisture barrier and cellulose based pallet boxes, all of which are readily recyclable.

Jointine Products (Lincoln) Ltd. certify that none of the above materials are used or have been used in our production process or packing material.

Yours sincerely,

Mrs Jane Smith
Managing Director
